EDUCATION

Ph.D. in Human-Computer Interaction

February 2019 - October 2022

The University of Melbourne

Melbourne, Australia

- Thesis Title: Automated Monitoring of Hand Hygiene Quality
- Supervisors: Prof. Vassilis Kostakos and Assoc. Prof. Jorge Goncalves

Master of Information Technology

February 2017 - December 2018

The University of Melbourne

Melbourne, Australia

- Graduated with Distinction and Dean's Honours List

Bachelor of Computer Science

September 2012 - June 2016

Hangzhou Dianzi University

Hangzhou, China

SKILLS

Research Interests

Human-Computer Interaction, Ubiquitous Computing, Medical Informatics

Program Languages

Python, Java, C & C++, SQL

Technical Skills

Wearable Sensing (IMU, sEMG), Environmental Sensing (RGB camera, thermal camera, depth camera), Image Process (OpenCV), Android Development

Analysis Skills

Statistical Analysis, Machine Learning & Deep Learning (scikit-learn, PyTorch), Data Visualization

Languages

Chinese (native), English (fluent)

WORK EXPERIENCE

Delft University of Technology

September 2022 - Present

Postdoc in Human-Centred AI

Delft, Netherlands

- Contributed to developing an intelligent assistant for manufacturing training (COALA: COgnitive Assisted agile manufacturing for a LAbor force supported by trustworthy Artificial Intelligence) under the European Union Horizon-2020 Programme;
- Conducted research on ubiquitous sensing on shop-floor and notification summarization for mobile devices;
- Collaborated with cross-functional teams of researchers and industry partners to initiate and execute new projects.

Delft University of Technology

September 2022 - Present

Academic Tutor

Delft, Netherlands

- Delivered tutorials to 130 students for machine learning (IOB4-T3, ID5515);
- Redesigned teaching materials used in the tutorials (IOB4-T3, ID5515).

Murdoch Children's Research Institute (MCRI)

February 2020 - August 2022

Research Associate Intern

Melbourne, Australia

- Designed and executed the field study of Using Wearable Sensor to Detect Episodes of Hand Hygiene.

The University of Melbourne

July 2019 - June 2022

Academic Tutor

Melbourne, Australia

- Delivered tutorials to 60 students for web application development (COMP10003);
- Delivered tutorials to 350 students for Android application development (COMP90018);
- Redesigned teaching materials used in the tutorials (COMP90018).

PROJECTS

Using Large Language Model to Facilitate Information Perception November 2022 - Present

- Conducted an in-depth evaluation of large language models' ability to summarize mobile notifications across multiple types of summarization techniques;
- Analyzed users' preferences and feedback regarding notification summarization techniques and their combinations.

Using Computer Vision to Measure Quality of Hand Hygiene October 2019 - Present

- Utilized environmental sensors (thermal and RGB cameras) to detect hand surface coverage following hand hygiene with antiseptic products;
- Leveraged computer vision algorithms to objectively assess hand hygiene quality in medical settings;
- Provided actionable recommendations for optimizing hand hygiene techniques based on findings from the study.

Using Wearable Sensor to Detect Episodes of Hand Hygiene February 2019 - August 2022

- Developed machine learning algorithms utilizing wearable sensors (IMU and sEMG) to detect hand hygiene events;
- Evaluated the potential for monitoring the frequency and effectiveness of hand hygiene practices in medical environments.

Using Environment Data to Predict Emergency Admissions February 2019 - November 2019

- Created advanced machine learning algorithms to predict emergency department admissions using a combination of environment data, calendar variables, and historical admission records;
- Streamlined hospital emergency department operations by optimizing personnel flow and investigating the impact of environment and calendar data on emergency admissions.

AWARDS AND SCHOLARSHIPS

PhD Write Up Award 2022

The University of Melbourne

Research Training Program Scholarship 2019 - 2022

The University of Melbourne

Dean's Honours List 2018

The University of Melbourne

Commonwealth Supported Place 2018 - 2019

The University of Melbourne

Third Prize Scholarships 2012 - 2015

Hangzhou Dianzi University

COMMUNITY SERVICE

1. Reviewer (Journal): PACM IMWUT, Journal of Medical Internet Research, JMIR mHealth and uHealth, JMIR Medical Informatics, BMJ Innovations, American Journal of Infection Control, Public Health in Practice, etc.
2. Reviewer (Conference): CHI, NordiCHI, OzCHI, etc.
3. Conference Committee: IoT 2022 (session chair)
